

# Simpler Recycling 2025

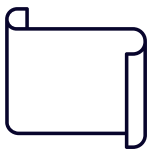

## What do you need to know?

Starting from **31 March 2025 (or 31 March 2027 for micro-firms)**, all workplaces, including businesses and non-domestic premises in England, will be legally required to separate all waste. This measure aims to achieve 65% municipal recycling by 2035.

## Segregation and Co-collection

Need exemption form to co-mingle

Paper & Card

Plastic

Metal

Glass

Need exemption form to co-mingle

Food Waste

Garden Waste

### What does this mean for you as a business?

If you generate any of the waste types listed above and currently mix them in a single container, you will need to start segregating them from 31st March (or complete an exemption form from the gov.uk website and share it with us). This may require additional containers. We offer a wide range of container sizes to suit your needs and can also adjust the frequency of your collections. Please review the [Government guidance](#) and reach out with any questions – we're here to support you through the transition.
